Mafia Villains "Cheat Sheet"

It is not about cheating, but if you read this short doc, you will have significant advantage how to understand Mafia Villains ecosystem, rarities and how to get maximum out of it.

Let's start.

In Mafia Villains project there will be max. supply of 20k Villains NFTs and 5k Turfs.

20k Villains NFTs are divided to 4 characters – Soldier 9k (Mint date 30th April 2022), Capo 5k (Mint date TBD), Boss 1k (Mint date TBD) and Babe 5k (Mint date TBD)

All 4 characters will have unique traits, rarities and non-visible attributes.

Mafia Missions

There will be missions for many Villains and Turfs. More than 1000 missions are planned + promo missions.

Missions will be focused on both attributes types – visible and non-visible.

First announced mission:

Surprise **Mafia Mission #1** Promotion

1, Mint Mafia Villain Soldier #7581 or #7596 or #7742

2, Contact us via DM on Twitter or Discord, share your Cardano wallet

3, PRIZE: 100 $ADA (no draw or lottery, direct payment from Mafia Villains Team)

In other words, if you mint or purchase MV Soldier 7581 or 7596 or 7742 for each of them you will receive 100 $ADA direct payment. Every mission can be completed only once. If e.g. someone minted MV Soldier 7581, sold it to you on jpg.store but did not claim the prize, you can contact us, we will check whether this mission is still open, if yes, you will get 100 $ADA.

It is mission focused on special MV Soldier NFTs.

Another example of the mission: If you have any MV Soldier with non-visible attribute "Business Skills" higher or equal 95, contact us and you will win 50 $ADA as prize. If you have more such a MV Soldier NFTs, you will win for each NFT the prize.

This is the mission focused on non-visible attributes.

How to evaluate and work with rarity

Most of the NFT projects focus only on visible traits rarity. For visible traits, we've introduced Rarity table of MV Soldier collection. Each character will have own rarity table.

Additionaly each MV Soldier NFT will have non-visible attributes "Business Skills" and "Stamina" with values from 1 to 100. The higher the better. These 2 attributes will be used in Mafia Missions to win prizes + in *Mafiaverse for earning tokens in ecosystem.

This is example of 1/1 MV Soldier 8995, there is only 1 NFT in soldier collection with background Unsig1006. If you mint this one, it will look on pool.pm like this example. You can see also Business Skills and Stamina attributes.

MafiaVillainSoldier #8995

Website
www.mafiavillains.com
Attributes
Background / Unsig1006
Body / Terminator Skin
Eyes / Thinking
Glasses / Fashion Glasses
Clothes / Black Top Tattoo
Head / French Crop
Mouth / Smoking Weed
Business Skills / 95
Stamina / 90

Let's evaluate another MV Soldier 8992 example.

Body is Normal Skin Scars – rare one as only 9% of all MV Soldiers have it.

Eyes Focused Red – rare one with 2.41% rarity.

Stamina 77 – rare as it is highly above 50.

In general, if you evaluate rarity of MV Soldier collection, check always both types of attributes. It will also help you to set up a price on secondary marketplaces. And keep in mind, any MV Soldier NFT can be part of the Mafia mission in the future.

What if my MV Soldier NFT already accomplished mission, should I sell it?

You can of course, but if you collect 3 or more finished Mafia missions on 1 Cardano address, you can claim the spot in Own to Earn program. And open new passive income stream for you.

Therefore, it is a strategy game. Having several Villains and Turfs which accomplished a mission is advantage to join O2E program early. If you have e.g. 6 missions done and split them into 2 Cardano wallets, you can claim 2 spots in O2E program.

Do you see the opportunity now? We can foresee those owners might be selling packages of Villains and Turfs with higher price, if they already finished missions. New way of looking into NFT rarity and price discovery.

Overview of all Mafia Missions including their status (Open, Done) will be available on our website https://www.mafiavillains.com/

Welcome to Mafia Villains Family and Ecosystem.

#LFG

MV team

*Mafiaverse – nowadays we cannot guarantee the development of 3D Mafiaverse world, but we are super excited to make it a reality and see Villains walking in 3D, trading, exchanging, joining e.g. Avatar or Alien clubs, earning and producing tokens etc. We will do our best to make it happen.
